

DV Hosts Guests of the Legacy of R. L. Moore Conference

[< Previous](#)

This past weekend, members of the Data Vortex team had a marvelous time attending and hosting participants of the 18th Annual Legacy of R. L. Moore Conference in Austin. SIIP Program coordinator Hutch Freeland gave a short presentation on the role of the Data Vortex and Inquiry Based Learning that was followed by an evening gathering at DV Headquarters, the historic home of Dr. R. L. Moore, with Educational Advancement Foundation Chairman, Mr. Harry Lucas. Over fifty academics and educators from across the nation visited our offices for the event.
